RE: Letter of Recommendation

TO WHOM IT MAY CONCERN:

I have worked with Tony Sokol, President and senior appraiser of Valu Tec, on several occasions involving Assessed Valuation disputes in Holland Charter Township. He has represented his companies well and has always been forthright in furnishing information which related to his client's values. He works in an easy going manner yet consistently emphasizes the importance of uniformity and fairness.

I would not hesitate to recommend Tony Sokol or his firm to a company that wants a thorough and comprehensive analysis of their assessment basis in a non-confrontational manner when dealing with assessment officials.

Cordially,
