RE: Indiana ERA Compliance

Dear Steve,

Thank you for attending the City Council meeting with me and the local Operations Manager to discuss our annual ERA Compliance. The meeting was important to us in order to determine if our company was in compliance with agreements signed at the time the abatement was approved, due to restructuring of our business.

Valu Tec encouraged us to join the meeting. We strategized ahead of time with Valu Tec in order to make a strong presentation to the County Council. The results of the meeting were positive and the abatement was approved.

Valu Tec has been a valuable extension of our tax department. Thank you for your continued good services!

Cordially,

A handwritten signature in cursive script that reads "Julie Samson".
