RE: Phase out of Michigan Personal Property

Dear Valu Tec Staff,

Since implementing the new Michigan personal property process in 2016, Aludyne has realized an estimated **\$7,500,000** in personal property tax savings! The saving has continued to grow every year.

Thank you for guiding us through all of the various issues as well as being there to answer our questions. Valu Tec has become a valuable part of our tax department.

I would urge other manufacturers not to wait to file according to the new process. There are three more years to benefit from the tax savings. Contact Valu Tec!

Cordially,

Julie Samson
Director of Finance
