RE: Real & Personal Property Tax Reviews

To Whom It May Concern,

Tony Sokol has successfully reviewed the real property for our various locations. We appreciate his negotiating efforts with the assessors to obtain fair and reasonable tax reductions for our real property.

We also appreciate ValuTec's annual review of our personal property returns.

I am more than willing to recommend ValuTec not only for the services they provide, but also for the integrity that characterizes their company and the diligent manner in which they work.

Sincerely,

A handwritten signature in cursive script that reads "Richard Saukas".
