Dear Tony,

You and your team continue to reinforce the value of your services. Our assessments have been reduced without straining our relationships with the local officials. Your negotiation skills, established relationships with the assessors, and expertise have greatly contributed to the return we get from your services.

Thank you for your assistance in filing abatements for our facilities and for the fixed asset inventory your team performed on our behalf. I would also like to thank you for your continuous analysis of our real property values. We are enjoying considerable tax savings because of your efforts.

Our personal property returns continue to be filed in a very efficient and timely manner.

Thank you again for your hard work.

Sincerely,
