RE: 2016 Personal Property Tax Phase Out

Cindy,

What a pleasant surprise to find a tax consultant that does what she says she is going to do! Although skeptical, I entered into an agreement with Valu Tec to file amended returns after the "normal" filing deadline. In addition to over \$40,000 in tax savings realized, a filing error in a prior year resulted in an additional refund thanks to Valu Tec's attention to the details!

Thank you for addressing my concerns and keeping me apprised of on-going projects. I would not hesitate to recommend Valu Tec to anyone looking for personal property assistance.

Cordially,

A handwritten signature in black ink, appearing to read "John Couturier", with a large, sweeping flourish at the end.
