## $Asset\ Inventory\ Client \backslash Question naire\ For:$

Property Location[s] and Square Fo	ootage:
1. 2. 3.	Square Footage: Square Footage: Square Footage:
Do you have asset tags, or do you w	ant Valu Tec to furnish the tags?
If the equipment is already tagged,	are we retaining that tag or applying a new one?
If we are to furnish the tags, what ty metal-based tag with a barcode)	ype tags do you require? (we generally recommend a self-adhesiv
Applying tags often requires a clean MSDS, is a cleaner readily available	ner to prepare the surface. To avoid having to register a new e?
Do you want pictures of the tagged	equipment included?
Do you have any buildings other that inventoried (such as an off-site war If yes, please note location(s) and a	
Does your firm use the same number	ering system for tagged equipment as your corporate office?
If no, do we need to track two sets of	of numbers?
Do you have someone that is knowl involved in the entire tagging proce	edgeable of your machinery & equipment on the site that could less?
Do you want model & serial numbe	rs noted if not already on the listing?
What do you want tagged, or simply machinery & equipment computers furniture & fixtures cranes craneways conveyors racking replacement parts inventory tooling other?	y counted? Put a T (tagged) or C (counted) or N\A by each item:

What is your capital\expense policy? (E.G., expense items under \$3,000 and are therefore not tagged)

Do you want everything currently noted on the fixed asset listing that is below your capitalization threshold excluded from the report?

If no, please explain:

How soon do you need this project completed?

What is the most important thing that you would like to accomplish with an asset inventory?

What specific PPE (personal protective equipment) will be required?

Is there a pre-work Safety video/orientation? If so, what is the estimated time to complete?

Have there been any past issues with inventories to make VTI aware of?
